COLUMBIA STELLAR QUARTETTE TO RENDER A GREAT PROGRAM

First Of Series Of Concerts To Be Given Next Week

ALL OF THEM ARE ARTISTS

Reed Miller, the second tenor of the Columbia Stellar Quartet, without doubt the best male quartet in America, will be heard in Charleroi, on Friday evening, October 24, as one of the attractions of the All-Star-Popular-Concert Series He has appeared as Soloist with the famous New York Oratorio Society in twenty-five separate occasions He has been engaged to sing the Messiah time and time again His engagement for the tour of the Columbia Stellar Quartet necessitated the cancellation of a number of important concert engagements throughout the country Mr. Miller was born in South Carolina and attended Oberlin College. For a while helived in Alabama and it was there his singing first attracted attention. Going to New York, he promptly took a high place in the list of young tenors, and in a remarkably short time gained recognition as one of the best schooled artists before the Public. He has had three tours with the New York Symphony Orchestra and two with the Chicago Orchestra and has appeared as Soloist at one time or another with every important Symphony Orchestra in the United States.

Tom Daniel, the Basso of the Quartet is a singer and teacher of wide experience and reputation. Coming to America as a youth from his birth place, England, he first studied with George J. Parker and the late Myron W. Whitney in Boston and at the same time was engaged as solo bass in some of the prominent churches there.

Later on the advice of Mr. Whitney and other eminent musicians, he went to Italy and studied thence to London, where he coached in oratorio with Frederick Walker. While in England he had the honor to appear as soloist with some of the principal musical societies there—at the Queen's hall and Chrystal Palace in London and with the great choral societies in Leeds, Birmingham, Liverpool, Bradford, Plymouth,etc., he also sang the role of the Prophet in "Elijah" at the fiftieth anniversary of its a production in the Birmingham Town Hall, where it was first sung.

Returning to America, he accepted a flattering offer to sing in the opera "Dolly Varden," playing the part at about six hundred performances

Mr. Daniel's voice is a pure bass of extensive compass, of deep and mellow quality and of great power. His tone production is flawless, the voice being absolutely even all through its long range and great care is given to proper enunciation.

Norman Arnold, is a Tenor of rare charm, who made his concert debut with Schumann-Heink in the Portland, Maine. Festival. is voice is young and fresh and a brilliant future is predicted for this young American Tenor.

Andrea Sarto, the baritone of the Quartet, has sung with all of the leading Oratorio Societies throughout the country. Originally he intended to become an operatic singer and sang for a number of years at the Metropolitan Opera House. Deciding, however, that the concert stage offered him more opportunities, he resigned and for the last two seasons has been devoting his time entirely to concerts.

The seat sale for the Columbia Stellar Quartet is progressing rapidly.

TOM P. SLOAN IS REAPPOINTED TO BOARD

All members of the Lake Erie and Ohio River Ship canal board have been reappointed by Gov. Sproul. The board was given an appropriation of $10,000 by the last legislature. Among the members of the Board, and who has been a member since its inception is Thomas P. Sloan of North Charleroi.

COUNTRY CLUB BUYS PROPERTY

The Monongahela Valley Country Club, on Thursday, closed a deal for the Vanderslice farm of 116 acres, the Hagherty farm of 16 acres and the Warner holdings of four acres, all in Carroll township, Washington county, which will be utilized as grounds for the newly formed organization. The board of directors elected L. X. ELY of Monessen as President, Dr. Edwin McKay of Charleroi vice president, John C. S. Herron of Monongahela, treasurer and Gilbert Koedel of Donora secretary.

The Elizabeth Herald says that a number of men of that town lost their good jobs in the Clairton mills "because of the recent strike fizzle."

Doctor Shoots Through Door And Wounds Sister-in-law

Dr. Charles R. Lakel of Fayette City, was arrested at his office Thursday night about 9 o'clock, by officer H. V. Boyce of Belle Vernon and lodged in the Belle Vernon lockup, charged with felonious shooting and attempt to kill. The arrest was the sequel to a disturbance created by the Doctor at the home of Wilson Conard, near Lynn's grove, about an hour previous, in which he fired two shots through the door of the Conard home one of the bullets striking Miss Theressa Conard in the temple

It is alleged that the physician had been drinking and that his wife had taken the two children, a boy and girl, and left the Lakel home, Fayette City, arriving at the home of her father about 7 p. m. At 8 o'clock Dr. Lakel arrived at the Conard home and demanded that his son Charles be returned to him. Alleging that the physician was under the influence of liquor and that he might create a disturbance the doors were locked against him. Then it was that the doctor drew a revolver and began shooting, the bullets passing through the door, one of which struck his sister-in-law.

After the shooting the Doctor evidently left the premises for he was arrested an hour later at his office in Fayette City. Miss Conard was taken to the McKeesport hospital and while the wound inflicted is a dangerous one, it is believed that she will recover. It is said the ball did not penetrate the brain.

Thieves Make Big Haul Of Automobile Accessories

Three men of Monessen, all of whom are known to the police, made quite a haul of automobile tirees and accessories in the Yough valley last night, getting away with hundreds of dollars worth of material from various garages which they had visited before being discovered in a garage at Suterville.

The trip was made in an Oakland touring car, license number 374,904 and from every indication the thieves began activities at once. A number of towns were visited and garages entered and robbed, tires, inner tubes, wheel chains and other accessories taken, all of which were loaded in the machine.

This morning about one o'clock they were discovered in the service garage of J. F. Messner & Son, Fairfield avenue, at 10 o'clock last Suterville and chase was immediately given. Mr. Messner was notified and with his son started after the thieves. They armed themselves with guns and were prepared to make it hot for therobber, but unfortunately they had a puncture and had to give up the chase. However, they notified the Monessen police, whom they asked to be on the lookout for the men.

This morning at 5 o'clock the police officer on duty in the hill district of Monessen saw a car draw up at 1205 McMahan avenue and unload a quanity of material. He asked the men where they got it and they said they had purchased it. The officer on reporting at the police station a short time later told of the occurrence, and the Chief knowing of the robbery, immediately organized an investigation squad and the home at 1205 McMahan avenue was visited. Steve Puchkar, who lives there, told who the men were that had brought the property and they will be arrested. One of the men boarded with him, while the other two were neighbors. Among the loot were 29 tires, with a large quantity of inner tubes and other supplies, all of which were taken to the police station. The officers are now looking for the thieves.

DRASTIC MEASURE TO ENFORCE LAW

Because of his alleged violation of the regulations of the Board of Health Officer Darby found it necessary to close the store of Paul Daino on Fairfield avenue at 10 o'clock last night. This morning the store was opened under supervision of a special officer, to see that the regulations of the board were strictly observed. A meeting of the Board of Health will be held this evening at which time it will be determined whether to continue the special officer.

Children in the Daino home have been suffering from diphtheria and the health officer forbid any member of the family exposed to the disease being in the store. This rule it is claimed was broken by a son of Daino and this caused the trouble During the past two days there have been four developments of diphtheria in Charleroi and the health board is watching local conditions very closely

High-heeled shoes should be kept off railroad tracks. One wearer got caught in a switch at Lancaster, Pa., and if a cool-headed man had not unlaced her shoe and lifted her out of it and away in time, she would have been crushed by an express train.

DRIVE FOR CATHOLIC CHARITY FUND WILL BEGIN ON SATURDAY

Campaign will be in Charge of 500 Teams of 10 Workers Each

TO END ON 27TH OF OCTOBER

All Catholics in this district have been organized for an "Over the Top" campaign in the big $500,000 drive for Catholic charities which will be launched tomorrow and end on the 27th of October Pastors of each of the 29 Catholic churches in the diocese of Pittsburg, which includes Allegheny, Armstrong, Beaver, Butler, Fayette, Greene, Westmoreland, Washington and Lawrence counties have appointed Captains for the teams. The parish organizations will be subdivided and the workers composed of men and women who will canvass all the people for cash and pledges.

James J. Flannery of Pittsburg is general chairman of the campaign and A. S. McSwigan general secretary. Rev. Lawrence A. Carroll of St. Williams, East Pittsburg, is chairman of the organization committee. At a meeting of the executive committee recently held plans for the drive were completed and it was announced that 500 teams of 10 workers each will be in the field throughout Western Pennsylvania counties on the opening day of the campaign.

All of the parishes in the diocese have been organized, while women who were leaders in the Red Cross auxiliaries of all the Catholic churches are forming bands to work throughout the drive

A large list of well known speakers will go from parish to parish and explain the necessity for the big half million dollar fund and for what purpose the money will be expended. The fund will cover all the expenses of the Conference of Catholic charities over a period of five years. The organization will superintend all Catholic charitable work, conducting a central office in which all applicants for relief will be sent and from where trained workers will make prompt investigation This Conference will participate in every form of relief and social service work and will be affiliated with all public and semi-public institutions. The relief to be extended will be to human souls of every faith, color and class. Necessity will be the only consideration when the merits of a case are under advisement.

RECEPTION WAS A DELIGHTFUL AFFAIR

The Missionary Extension Department of the Woman's Missionary Society of the Washington Avenue Presbyterian church gave a reception to the members in the Mrs. Ella Allman section, Thursday evening, in the Sunday school room of the church The room was decorated with honeysuckle vines encwined around the walls and at every few feet a red dahlia was placed, the green and red on the tinted walls making a rich harmony.

Mrs. Allman was in charge of the program. Members of the Westminister Guild gave the "New Era" play. "The Missionary Clinic." Miss Nell Ryland was the doctor in charge and Miss Helen Fleming the nurse. The patients were the Misses Genevieve Nutt, Grace Fleming, Susie Jewell, Emma Clutter, Freda Whitehead and Mrs. John Gaut and Mrs. Arthur Miksch. Mrs. Pfleghardt presented the "Jubilee" program of the church. Miss Blanche Allison and Miss Grace Fleming sang a duet and Miss Emma Clutter a solo, both accompanied by Miss Bethel Newman. Rev. Burson spoke on "The Need of the Hour." There were several invited guests and the evening closed with a social hour, the hostesses being Mrs Allman, Miss Elizabeth Wise, Mrs. Van Speer, Mrs. Stahlman, Mrs. H. A. Williamson, Mrs. Allen and Mrs. Knight.

Will all those who have not returned masquerade costumes which were rented either from Mights Book store or from Mrs. Dunkerly, Speers, Pa., last fall kindly return them at once. 114-t2-p

American Institutions Are Not Crumbling== Go Back to Work.

This is no time to talk revolution. It is un-American to make a "direct drive" at American Industries and Institutions. Thousands of our boys went across the seas to stop the Hun hordes from destroying the world. Stop this movement that is here now to spread fear and starvation and strife in the land we love so dearly.

Get your job back. Be a man, faithful to your post of duty. Do your bit to help the government reduce the cost of living. Why strike when the President of the United States appealed to the leaders to hold off for an investigation.

Join the loyal workmen determined to make our industries go. The mill gates are open to welcome every man who aspires to be a good American. Go back to work.

Amerika je vyzvaná!

Toto nie je obvčajný strajk. Ba treba naň hľadeť, ako na diabolský krok niekoľkých radikálov, chcejúcich disorganisovať robotníctvo a tak siať revolúciu v tejto vlasti.

Či vy tomu neveríte? Prečítajte si týchto pár výťahov a brožúry "Syndicalist", napísanej a vydanej jedným z vodcov tohoto strajku:

"Syndikalista vidí v štáte len inštrument utláčania, tárajúceho administrátora industrie a navrhuje ho vyhnať z budúcej spoločnosti ľudskej."

"Syndikalistické hnutie je radikálne proti demokracii a štátu."

"Radikálne proti demokratismu a štátu." Či je to dosť jasné? Teda dobre bude, keď nahliadnete do situácie dobre. Toto nie je obyčajný strajk. Amerika je vyzvaná. Na toto nesmiete sa dívať nečinne. Nastala doba rozhodného činu. Tento jedovatý had radikalismu, ktorý chce zničiť americkú svobodu a vrútiť túto vlasť do chaosu, ktorý zapríčinil neopísateľnú biedu, hlad a smrť v Rusku, musí byť porazený.

Občania tejto vlasti nechcú mať revolúciu. My nechceme ani počuť o vláde, akou je ruská sovietska vláda. My chceme len americký život a svobodu pod americkou vládou.

Vy znáte, ako Nemci zkazili industrie Francie, Belgicka, Srbska, Ruska a iných európskych krajín počas vojny.

Nedopustte, aby ste svojim činom pomáhali Nemecku vyhrať industriálnu vojnu proti Amerike teraz, keď je po vojne.

Držte Ameriku zamestnanou, prosperujúcou a americkou.

Chod'te nazad do roboty.

Ameryka wezwana [illegible]

To nie jest zwykły strajk. Musimy nań się patrzyć i uważać takowy za i ście dyabelski zamach grupy radykałów, którzy chcą rozbić i desorganizować robotników i zaprowadzić rewolucyę w tym kraju.

Czy ty wątpisz w to? Przeczytaj sobie te kilka wypisów z opublikowanych artykułów Syndykalistycznych pamfletów jednego z przewodniczacych tego strajku:

"Syndykalizm widzi w rzadzie tylko narzędzie opresyi, nieodpowiednią i niezaradna administracyę przemysłu i proponuje usunięcie takowego zupełnie ze społeczenstwa."

"Syndykalistyczny ruch jest radykalne przeciwdziałający demokracyi i rządowi."

"Radykalne przeciwienstwo demokracyi i rządowi" — Czy jestto dosyć wyraźnie określone. Musicie położenie to przyjąć tak czy owak.

Nie jest to zwykły strajk — Ameryka jest wezwana do walki. Bierne patrzenie na sprawę tą nie może być więcej tolerowane. Czas obecnie przyszedł na stanowcza działalność. — Żmija radykalizmu któraby zniweczyła Amerykańska wolność i pochłonęła kraj ten w chaos któryby sprowadził podobne nieobliczone cierpienia, głód i śmierć jak w Rosyi, musi być bezwarunkowo zgnieciona.

Obywatele tego kraju nie chcą rewolucyi. Nie chcą oni rządów Rosyjskich Sowietów. Chcą tylko Amerykanskiej wolności i swobodnego życia pod rządami Amerykanskimi

Jest wam wiadomem jak Niemcy [illegible] przemysł i handel Francyi, Belgium, Serbii, Rosyi i innich krajów Europejskich podczas tej strasznej wojny.

Nie pozwólcie na to, aby jakikolwiek uczynek z waszej strony przyczynił się osiągnięciu przez Niemcy przodownictwa w przemyśle i handlu światowym, obecnie, gdy ta straszna wojna została zakończona.

Trzymajcie Amerykę zajętą, i w dobrobycie, i wskroś Amerikańska.

Powróćcie napowrót do Pracy.

AM[illegible] ВЫЗВАНА.

Это не есть обыкновенная забастовка. На нее надо смотрѣть какъ чертовское усилие небольшой группы [illegible] стремящихся разстроить рабочую силу и образовать революцию въ здѣшнемъ краѣ.

Вы въ этомъ сомнѣваетесь? Прочитайте нижеприведенныя выписки изъ Синдикалистическаго Журнала, написаныя однымъ изъ вождей забастовокъ:

"Синдикалистъ видитъ въ Правительствѣ орудіе притѣсненія, не ловкаго администратора индустріи и предлагаетъ устранить его изъ будущаго общества".

"Синдикалистическое движеніе есть совсѣмъ противное демократіи и правительству."

"Совсѣмъ противно демократіи и правительству." Это довольно ясно. Вы находитесь въ положеніи четыреугольника. Это не есть обыкновенная забастовка. Америка получила вызовъ. Пассивное равнодушіе тутъ не на мѣстѣ. Теперь подошло время для окончательнаго агрессивнаго дѣйствія. Этотъ единый радикализмъ можетъ разстроить Американскую свободу и бросить край въ такой хаосъ, какъ въ Россіи и повлечь за собою несказанныя страданія, голодъ и смерть. До этого нельзя допустить здѣсь.

L'America viene sfidata!

Non é questo uno sciopero ordinario — Al contrario esso dovrebbe essere considerato come il diabolico tentativo di un piccolo gruppo di rrivoluzionarii per portare lo scompiglio nel campo del lavoro e accendere la rivoluzione in queste paese.

Ne avete qualche dubbio? Leggete i seguenti periodi estratti dagli scritti Sindacalisti di uno dei Capi di questo sciopero:

"Il Sindicalista considera lo Stato come uno strumento di oppressione, un amministratore delle industrie e dovrebbe percio' essere esciuso dalla futura societá"

"Il movimento Sindacalista e radicalmente opposto alla Democrazia ed Stato."

"Radicalmente opposto alla Democrazia ed allo Stato. Non e questa espressione abbastanza chiara? Voi potreté anche affrontare la questione apertamente. Questo non é uno sciopero usuale. Questa é una sfida all'America. L'indifferenza passiva non e piú possibile. E' giunto il tempo per cominciare una campagna aggressiva. Questa vipera del Radicalismo mira alla distruzione della libertá Americana e buttare la nazione nelle tenebre, causando sofferenze immaginabili, causando gli effetti giá avutisi in Russia, la fame e la morte. Per tal ragione questo movimento dovrá essere sconfitto.

Il popolo di questa Nazione non vuole la rivoluzione. Esso non vuole i Sovietti Russi. Esso vuole solo regime americano e [illegible] del [illegible]

Voi sapete come la Germania distrusse le industrie della Francia, del Belgio, della Serbia, della Russia e di altre nazioni europee durante la guerra.

Fate in modo che nessun vostro atto possa aiutare la Germania a vincere sull'America questa battaglia industriale, ora che la guerra e' finita.

Mantenete l'America occupata nel lavoro, fatale prospera, siate sincero Americano.

Amerika ki van híva.

Ez nem közönséges sztrájk. Inkább kell ezt tekinteni a radikálisok egy kis csoportja őrdögies kisérletének, melylyel akarják a munkásságot megzavarni és ebben az országban forradalmat előidézni.

Kétségbe vonja ezt? Olvassa el ezt a néhány kivonatot egy sztrájk vezető szyndikalisztikus irataiból.

"Szyndikalista látja az államban az elnyomás eszközet, ipar vezetésének a kontárkodását és próbálja azt jövő társadalomból kiköszöbölni.."

"Szyndikalista mozgalom radikálisan ellenzi a demokraciát és az államot."

"Radikálisan ellenzi a demokraciát és az államot". Elég világos az? Legjobb ha az állapot szemébe néz egyenesen. Ez nem közönséges sztrájk. Amerika ki van hiva. Türő nembánomság többé nem segit. A vé. gleges hathatós cselekedetnek az ideje megékezett. A radikaliszmus ezen viperáját, mely megsemmisitené az amerikai szabadságot és az országot dobná zavarba, mely okozott kimondhatlan szenvedést. éhezést. és halált Oroszorszában, tönkre kell tenni.

Ezen ország népe nem akar forrodalmat. Nem akar orosz Sovietet. Ő akar csak amerikai életet és szabadságot amerikai kormany alatt.

Önök tudják hogy Németország miként megbéntotta Franciaország, Szerbia, Oroszország és más európai országok iparát a háború alatt.

Ne engedjék, hogy hármely tettei segitsék Németországot megnyerni az ipar háborút Amerikából most, midőn vége van a háborúnak.

Tartsák Amerikát tevékenységben, jólétben és amerikainak.

Most wonderful of all is the nest of the hornbill. The hen bird lays her eggs in a hollow in a tree, and as soon as she is settled on them the male bird walls her in with clay, leaving just space for her head to stick out. He feeds her, and there she sits, not only until the eggs are hatched, but until the young are big enough to come out.

Untying the Knot.

There is a marriage custom among the Santals, a tribe in India, by which, after a cash price has been set on the bride by the parents, the fiance and his lady tie a knot in a string for each day to intervene before the wedding. Then the persons separate; day by day a knot is untied, and when the end of the string is reached the real knot is tied that makes the couple one.

Pearl Superstition.

Pearls used to be considered red unlucky and history tells of more than one queen who before the sudden and tragic death of their royal consorts, saw in dreams all their jewels turned to pearls and were told that it presaged tears. Just the same women were not afraid to wear them and nowadays we laugh at superstition.

Rich Silver Coins.

In the republic of Honduras the silver currency was for years minted from Socorro bullion. This nearly always contains a certain proportion of gold, which used not to be separated before it went to the mint; so the Honduras silver coins prior to 1911 generally contain a certain proportion of gold.

Sensitiveness of Plants.

When rain is about to fall the clover shuts its leaves, bringing two of its three leaves face to face and folding the third over the top. The young blossoms are also carefully sheltered by inclosing leaves which move forward in the evening and wrap them round.

New Potatoes Grow Old.

If you place two-year-old potatoes in a box in a perfectly dry dark place and leave them for a few weeks you will find that new potatoes have grown on the old ones. They will continue to grow until the old potatoes have shriveled to dry skins.

BASIC PRINCIPLE IS FAITH

Whole Child Character Built on It, According to Writer in Mother's Magazine.

A man never marries the woman he jokes about, and never jokes about the woman he marries. If women followed the same rule, marriage would be the gainer. And if wives worried less about the unborn and used more reason about the children that are born, a single generation would revolutionize society.

The boys of today are Fathers in the Making. The kind of fathers they turn out to be will depend entirely upon the influences that form their characters as children.

I have said the man's faith in woman is stronger than woman's faith in man. Do not forget that truth. But, even when faith flies out of the window, love may return.

Keep this distinction between love and faith clearly before you, because the foundation of the home, and the basis upon which child character is built, is faith.

First, there is the faith of the husband and wife, each in the other.

Second, there is the faith of the child in the mother.

Third, the faith of the child in the father.

Fourth, the faith of parents in the child.

Fifth, the faith of the child in the true principles of life, and its own duties and rights as a human being.

These five elementary influences determine the character, and in the absence of and other force greater usually remain the moving impulses of the individual all through life.—John Horace Lockwood, in Mother's Magazine.

EXPLAINS NATURE OF THIRST

Doctor Cannon of Harvard University Shows Where Popular Conception Has Been Wrong.

The popular conception of thirst, according to a well-known medical journal, is a lessened water content of the body, a condition in which the entire organism suffers, but Dr. W. B. Cannon of Harvard university, considers it a purely local phenomenon.

"According to him, the pre-eminent factor is the relative drying of the mucosa of the mouth and pharynx. This may result either from excessive use of the passage for breathing, as in prolonged speaking or singing, or it may be caused by deficient salivary secretion. The latter, according to Cannon represents true thirst depending on the fact that the salivary glands which keep the buccal and pharyngeal mucosa moist, require water for their action.

The salivary glands occupy a strategic position in relation to a surface that tends to become dry by the passage of air over it. "Thus," Cannon concludes, "the diminishing action of the salivary glands becomes a delicate indicator of the bodily demand for fluid."

Hunger Helps Diabetics.

During the course of the world war, as the blockade and unfavorable internal conditions were gradually curbing down the rations of the central empires, it was frequently noted in German newspapers that, at all events the food shortage had some redeeming features chief of which was its beneficial effects upon sufferers from diabetes.

In corroboration of this assertion, now comes Professor Rosenfeld of Breslau with an article in a recent issue of the Zentralblatt fur Innere Medizin, showing how the number of deaths from diabetes was reduced during the war. In Berlin such deaths in 1918 totaled 177 against 264 in 1917, 331 in 1916, 383 in 1915, 467 in 1914 and 499 in 1913; in Munich they were 77, 78, 82, 101, 104 and 105 for the same years, and in Breslau they were 51, 72, 78, 113, 113 and 100.

Cut Metal With Smooth Disks.

Not so very long ago the discovery was made that metals could be sawed easier and quicker with rapidly revolving smooth disks of steel than with toothed circular saws. It was found that the cutting was done by the heat generated by the friction of the edge of the disk against the metal. The metal is melted at the point of contact while the steel of the disk, being cooled by the air, does not reach the melting point. The disks need no sharpening and do not wear out so quickly as the toothed saws heretofore used for cutting metal. The faster the disk revolves, the greater the amount of heat generated, and the quicker the job.—Popular Science Monthly.

Oil and Helium in Canada.

Canadian commercial enterprise is again before the British public in the form of two announcements, the first being that exploitation of the oil fields of Western Canada on a large scale is in contemplation.

The second announcement refers to the discovery in large quantities in Western Canada of helium, the lightest known gas after hydrogen, which is more suitable than the latter for filling airship envelopes, as it is non-inflammable and nonexplosive.

Trade With Nicaragua.

Declared exports to the United States from Bluefields, Nicaragua, amounted to $2,715,222 in 1918, an increase of $1,286,452, compared with the value of the 1917 exports. Bananas were the chief article of export, the value of those shipped being $1,161,609 in 1918, a large increase over the 1917 shipments of $204,992.

A RICH MAN'S HOUSE.

We read that the costly house of a very rich resident of New York was valued by the assessors at $3,500,000 and by its tax-dodging owner at $1,650,000 and that one of the witnesses, an architect, called by the tax board declared that no reigning sovereign anywhere in the world has so fine a house to live in. The detailed description of the house seemed fully to support this assertion. Now, an American with a house finer than any king's palace ought to be able to fill it not only with costly treasures but with the most distinguished company to be found in his native land. But is he? And does all the magnificance surrounding him really give him any more happiness than is enjoyed by people of less means, or even by humble citizens who live in small rented houses and have few luxuries yet are blessed with good health and can claim real friends?

"What is dignity, whether greater or less, and what is opulence, greater or less?" asks an eighteenth century philosopher, who understood the human heart. "Is one person more highly favored or happier than another? With the great man, even with the king and the emperor, are dignities and riches after a single year otherwise regarded than as something common, which no longer lifts his heart with joy, and which may even become worthless in his sight? Are they from their dignities happy in a greater degree than those who are in less, or even in the least, as farmers and also their servants? These latter may have happiness in even greater measure when it is well with them and they are content with their lot. What is more restless at heart more easily provoked, more violently enraged than self-love and this as often as it is not honored according to the uplifting of its heart, and as anything does not succeed with it according to its pleasure and desire?"

WHERE HE STANDS

There is no doubt as to where Senator Pomerene of Ohio stands on certain phases of the present state of unrest in this country, particularly as it applies to those agitators who are doing their best to stir strife in labor circles. In answer to a letter sent to him by the secretary of the United Labor Congress of Youngstown, Ohio. This organization had passed a resolution condemning a recent speech made by Representative Cooper of Youngstown, himself a member of the Brotherhood of Locomotive Engineers. Senator Pomerene in reply said:

"Permit me to suggest in a very kindly way, do not mistake the American spirit. Americans are long suffering. If our government needs changing, the majority will change it and not the minority, and when it is changed it will be by real Americans and not by Soviets or Bolshevists of the Foster type. To place Foster at the head of any movement is an insult to every law-abiding laboring man and to America herself. We do not need the aid of the Fosters and the un-Americanized foreign element to tell us how to run our country.

"America would not tolerate the menace of a military autocracy in Germany. She raised an army of 4,000,000 men to prevent it. This same spirit will not sit silently by and see built up in this country an industrial autocracy, whether it be in the name of capital or labor. We have the best government in the world and we are going to keep it the best. Some people cannot appreciate its preservative qualities until it is taken away. But most Americans understand it."

A SPLENDID RECORD

The report of the Charleroi Chapter of the American Red Cross, made at the meeting held Tuesday night, shows that Charleroi has an association which is prepared to meet any emergency that may arise to threaten the health of the community. The firm foundation upon which the local Red Cross Chapter has been founded is due to the splendid co-operation of the men and women of the community who gave of their best efforts and much of their energy to make the undertaking a sucess. The results of their labor is manifest to all in the splendid report submitted, after the auditors had gone over the books of the organization from its inception to the last day of September.

The Red Cross carried many burdens during the war; it is still doing a great work among the returned soldiers; it may be compelled to respond to local appeals as it did last fall, but if such should be the case it will be ready. Every department of the organization was well managed, and its success will be a lasting monument to all of those who labored to make it an effective association.

When the drive comes for membership early in November there should be no hesitancy on the part of our people to renew their subscriptions; it is only a nominal sum, while many additional memberships should be secured throughout the district. The Charleroi Chapter of the American Reed Cross is one institution growing out of the war that should be permanently perpetuated in this community.

TRADE MARKETS OF THE WORLD

In August, the ninth month after the armistice, not merely the belligerents of the year before but the neutrals and semi-neutrals, were pressing their cargoe to our shores in steadily increasing volume. Observe first the "war wrecks." Germany and Austria-Hungary delivered to us goods to the value of more than $556,000 as against nothing at all in 1918. Russia in Europe sent us more than $1,260,000. Belgium came along with $548,000. From January to August 31 Germany and Austria-Hungary laid down shipments valued at $1,900,000; Russia in Europe $2,700,000; Belgium $1,762,000, says the New York Sun.

France, however war wrecked, put across the seas for our markets in August more than $11,000,000 of merchandise—a gain over the year before of nearly $6,000,000. From the seven months from January 1 she scored with us $57,000,000, a gain only short of $15,000,000. Italy in the same class, with $6,800,000 for August gained $4,800,000 in the eight months she delivered to us more than $22,000,000.

From the United Kingdom in August came nearly $25,000,000, a gain of more than $12,000,000. In the eight months the record was $143,000,000 again of more than $33,000,000. Other nations have done proportionately well in shipping their products to the United States, and the imports are continually on the increase.

For those who fought the swords have been beaten into ploughshares. For those who stood vigil without the battle lines warships have given place to cargo carriers. Armies of belligerents and armies of neutrals alike deliver their strokes and fashion their wares to freight deeply laden argosies for our golden market. And our national leaders talk, our national workers idle and quarrel. Lord help the United States—trade target of the world.

The steel strike did not promise well from the outset because the strikers could not afford to lose many days of their big wages.

Fenian Invasion of Canada.

On the 6th of June, in 1866, President Johnson issued a proclamation forbidding the Fenians, a revolutionary society aiming to free Ireland from British rule, to organize and arm in the territory of the United States with intent to invade Canada. The Fenians in a body of 1,500, including many ex-Union soldiers of Irish birth, had assembled at Niagara Falls and crossed into Canada on the 1st of June. The following day they engaged in a skirmish with the Canadian militia and were driven back into the United States, where 700 of them were arrested and held for a few months.

How Great Ideas Are Formed.

It is only by knowing and applying natural laws that man has been able to develop the submarine, the airplane, wireless, the phone and a thousand other things that are now thought commonplace. Sometimes he happens upon a great fact by accident. But usually it's the patient study of a lifetime that brings the reward. Patience and persistence are the means that bring man to the extremes where the gold lies. Shallow men talk and pronounce opinions. Deep thinkers muse and reason and try again before the reward comes. But it's bound to come when they harness their forces.

In Canada's Barren Lands.

The barren lands of Canada comprise all that enormous stretch of country which lies north of civilization right up to the Arctic ocean. Over the whole of it graze vast herds of caribou, or reindeer, which are estimated to number anywhere from 20,000,000 to 50,000,000. Though a rather small animal a caribou weighs about 200 pounds and its flesh is very much better than the best Scotch venison. A number are killed for meat by trappers and Indians, but not one is shot to a hundred that are killed by wolves and [illegible].

It is disapprovingly noted that the Kansas legislature voted to spend $25,000 on the health of hogs and only $7,500 on the health of babies. Possibly the true explanation is that the babies are healthier than the hogs and that meat from Kansas is in need of inspection.

The Path to Health

For many thousands of women the Path to Health has certainly been through Lydia E. Pinkham's Vegetable Compound. When this great remedy was first introduced, and for many years after, skeptics frowned upon its curative claims, but as year after year has rolled by and the little group of women who had been cured by it has since grown into a vast army of hundreds of thousands—doubt and skepticism have been swept away as by a mighty tidal wave, until today this purely vegetable medicine is recognized as the greatest remedy for woman's special ills in the world. This is because it is a wonderful tonic and reconstructor which acts directly and favorably upon the feminine organization and is a specific for that purpose.

Really No Problem at All.

The question of the weight of a fish in water was settled over 250 years ago. It is said that Charles II of England once asked for a solution of the problem as to why a pail of water should weigh no more after a live fish was placed in it than before. The reasons ascribed by scientists were many, but no definite conclusions were reached. Finally one man, more practical than the others, tried the experiment and discovered that the weight was increased just as much as the fish weighed.

Lily Leaves as Rafts.

Down in the Madras district of India there are lilies that grow leaves of phenomenal size. Indeed, these leaves are several feet in diameter and have turned-up edges to form a shallow bowl which floats on the water. The buoyancy of these leaves is such that they will readily carry the weight of a small child, as shown in the accompanying illustration. This variety of lily is known as the Victoria Regia.—Scientific American.

Bird Rebuked.

Marguerite was accustomed to being told by her mother to keep still when any grown-up person present was speaking. One day her mother was telling something interesting when a canary in the room commenced singing at its loudest. Marguerite climbed upon a chair to the cage and shaking her finger at the bird said in a commanding tone, "You keep still! Don't you hear my mamma talking?"

Ingenious Excuse.

Billy's mother was particular that he should say his prayers upon bended knee before retiring, and one cold night she was surprised to find him already in bed when she stepped in his room to hear him repeat his prayer. "Why, son, you haven't said your prayers," she began, but he interrupted her: "Oh, yes, mother, I have; I said them in bed but I got in just as uncomfortable position as I could."

Laddie's Form of Exercise.

I was making a house-to-house canvass recently and as I turned in at one house I noticed a small boy and his dog but the dog no sooner noticed me than he came bounding towards me, barking loudly. "Don't be afraid," called the lad. "Laddie won't bite; he is just exercising his bark."—Chicago Tribune.

No Difference in Degree.

Dorothy was very much interested in watching twin boys who sat across from her in the street car. They were peculiar-looking children, but also much alike in feature. At dinner that night she said, "Daddy, you ought to have seen those boys on the car today. One looked just exactly as bad as the other."

Ice Cream for Choice.

Arthur attended a children's party at which the refreshments served were lemonade and cookies. The hostess saw that Arthur was not drinking his lemonade, so asked him if he didn't care for it. "O, yes," he answered. "Lemonade is all right, but ice cream is my favorite."

Japanese Use of Seaweed.

It is estimated that 600,000 Japanese are employed in the seaweed industries, using the weed in the manufacture of such diverse objects as policemen's boots, picture frames, marbled floors, and electric switchboards. They have even found a substitute for cotton in a seaweed called "Sugamo."

Early Belgian Art.

Three painters who helped to beautify Belgium are associated with the Burgundian dynasty in Belgium—Hans Memling and the Van Eycks, Jan and Hubert. The work of the first of these has in it characteristics that are typical of the early Belgian art, the love of detail. All the pictures painted by early Belgian artists are full of details of fur, brocades, jewelry, gold, silver, oriental rugs and richly carved furniture. This pleasure in the outward appearance of things is noticeable in Memling's "Virgin Enthroned" in the Uffizi gallery, Florence. The geometric pattern of the rug, the violin, the apple, the castle in the background are all worked out with photographic realism. Memling's delight in the surface of things is like the pleasure a merchant feels when he fingers a fine piece of textile.

ADVERTISES ITS OWN WARES

Knowitall Family Shrinks From No Publicity in Pointing Out Markets to Be Patronized.

The Knowitall family is increasing here.

Members of this large and important branch of the human family seem to have decided that there is no place in the world quite so fine as the national capital, judging from the large number of these busybody folk to be heard in the streets, offices and other places.

You will know a Knowitall when ever you hear him or her. It will be a mild-mannered little man discoursing at great length and in a loud voice—always loud—the proper solution of the question of world peace.

It will be a very young man who understands tactics, logistics and all the other branches of the military art from A to Z, and who does not hesitate to offer free advice—at several thousand miles distance—to General Foch, General Pershing et al.

It will be a young woman who is quite sure—in fact, doubt never enters her head—that she is eminently qualified to speak—and, of course, loudly—upon all points of domestic economy. She gives mother and grandmother pointers on how to cook and sew and sweep, and knows all the best methods for taking care of babies.

It will be—but what is the use? All that is possible is to mention a few, and listen to the others.—Washington Star.

WHAT WAS THERE TO SAY?

Simple Prank of Fate That Caused Embarrassment Surely Hard Thing to Explain Away.

The minister of a certain small town, Indiana church recently held a number of meetings for his young men members, in which he warned them against being frivolous in the choice of wives, etc. "Modest young women should always be chosen," he quoted and then delivered a heavy thade against the prevailing short skirts and silk stockings.

Several of the young girls were rather indignant and avoided the minister for a time. But one day as he was coming home from shopping for his wife he met two who at first were rather cold, but as the conversation progressed became distinctly amused and finally departed giggling. The younger one fired this final retort: "I'm glad you changed your mind on some things. Reverend T—."

The minister wondered on that last speech all the way home. Then he repeated it to his wife. She looked at him closely and then burst out laughing. "No wonder," she exclaimed, and held up for him to see the magazine he was carrying.

Some way, in packing his bundles together he had turned it inside out and there, facing the young women, had been an advertisement of very fancy rose-colored silk stockings on a very beautiful model.—Indianapolis News.

He Wanted to Know.

A well-known St. Louis society woman has some very interesting and intelligent grandchildren, and this is the story she tells upon herself. Her little grandson, looking puzzled, said to her: "Grandmother, how does it come that your name is Brown and father's name is Smith, when you are his mother?" These are, of course, not the names, but they will do for the story.

"I'll explain, dear," said grandmother. "You see, I had several names. First my name was White, then I married your father's father, Mr. Smith, and I became Mrs. Smith, and that is your father's name. Then he died and I married Mr. Brown."

"And where is Mr. Brown?" asked the child.

"He is dead, too," said grandmother.

"Then what will be the name of the next man you will marry?"

"Well, I couldn't say right off," said grandmother. "I'll have to think about that."

The fur that warms a monarch warmed the bear. But the wool that warms a sheep makes two good spits for a man.

Only one sheep in twelve living today is an American sheep, although Americans require a quarter of all the wool every year.

Farmers and ranchers could double their flocks and still they would not supply enough wool for our home use, declares "Griad" in the Philadelphia Press. We need in the United States more than a sheep for every person, and that accounts partly for your dear lamb chops and leg of mutton.

But it isn't expensive wool alone that boosts the price of your new spring suit.

The wool in a $50 suit stands the maker less than a tenth of what you pay for it.

University to Teach Business Methods.

Four new professorships are to be established at Edinburgh university, i. e., zoology, forestry, psychiatry (mental diseases), and accounting and business methods. The salaries in the first-named two have been fixed at $5,000 and in the other two at $3,500. The sum of $75,000 has been raised by a number of citizens in Edinburgh and Leith (Scotland), to endow the chair of accounting and business methods. It is also understood that funds for a lectureship in another branch of commerce are about to be provided by the same subscribers.—Trade Commissioner H. G. Brock, London.

LOOKING AHEAD A FEW YEARS

Remarks That Will Be Merely Ordinary When the Blimp Has Been Finally Perfected.

Artemus Tolliver the soap king, strode wrathfully out of his stateroom aboard the blimp and seized the arm of the porter.

"Id or!" he roared, "why didn't you give me a call this morning? I told you I had to be in London for a directors' meeting at 9 a. m. sharp, and now London is Lord knows how many thousands of miles in our rear."

"Ah pounded on yo' door, boss, but yo' refuses to waken," replied the porter.

The soap king pulled out a watch.

"Eleven-thirty," he grunted disgustedly. "Where are we now?"

"Jest passed over St. Louis, boss; we'll be back in N'Yawk at 12:05."

"Oh! well," said Tolliver, "I can attend that 12:30 meeting of the soap powder people and catch the 1:30 blimp for London."

Rat Skins for Leather.

The suggestion has been made that the rat problem might be best solved by making use of the skins of the rodents for the purpose of leather.

Somebody with the gift of guessing computes that there are 10,000,000 in this country, and the damage they do would feed a good-sized army. It would take at least 5,000 skins a day to supply a small modern tannery.

Nobody wants the rats, they belong to anybody that can catch them. That is the problem—to catch them, and then deliver the goods. There is not enough leather to go around.

Fish skins are susceptible of tanning, and there are rat skins which make good leather, large enough for many purposes.

RUPTURE EXPERT HERE

Seeley, Famous in This Specialty, Called to Washington

F. H. Seeley of Chicago and Philadelphia, the noted truss expert will personally be at the Auld Hotel and will remain in Washington Friday only, Oct. 17. Mr. Seeley says: "The Stermatic Shield will not only retain any case of rupture perfectly but contracts the opening in 10 days on the average case. This instrument received the only award in England and in Spain producing results without surgery, injections, medical treatment or prescriptions. Mr. Seeley has documents from the United States Government, Washington D. C. for inspection. All charity cases without charge, or if any interested will, he will be glad to show same without charge or fit them if desired. Business demands prevent stopping at any other place in this section.

P. S.—Every statement in this notice has been verified before the Federal and State Courts.—F. H. Seeley

Co-Ed (coolly to freshman who has just picked up her handkerchief) —Thank you. But if I should happen to drop it again, please don't bother. It wasn't you I meant.—Penn State Froth.

Or the Monday Blues.

Takes Millions of Eggs.

According to the statisticians of the food administration, it takes 28,000,000 eggs a year to clarify this country's soup.

"Gets-It" Peels Your Corns Right Off

Two Drops Will Do It Without Fuss or Trouble. Never Fails.

There's only one way to get rid of corns, and that is to peel it off as you would a banana skin. There is only one corn remover in all the world that does it that way, and that

There's No Corn "Gets-It" Will Not 'Get.'

is "Gets-It." It is because of this fact that "Gets-It" is today the biggest seller among corn-removers on this planet. It means the end of "corn-coddling." For hard corns, soft corns, very old corns, young corns, corns between the toes and calluses, it means a quick, certain finish. "Gets-It" is applied in 2 or 3 seconds. All you need is 2 or 3 drops. As easy to do as signing your name. It does away forever with tape, plasters, bandages, knives, corn-diggers, scissors, files and blood-bringing razors. Ease your corn-pains, be corn free at last.

"Gets-It," the only sure, guaranteed, money-back corn-remover, costs but a trifle at any drug store. Sold by E. Lawrence & Co., Chicago, Ill.

Sold in Charleroi and recommended as the world's best corn remedy by Frank J. John and Piper's Pharmacy.

SCHEME DIDN'T WORK RIGHT

Business Man's Pleasant Evening Nothing at All Like What He Planned It Should Be.

"Gosh," exclaimed the business man, "I had the disappointment of my life last night. Even this sunny morning can't take away the sting. For the past month I don't believe I have had one nice quiet peaceful night at home—an evening of perfect relaxation. It seemed longer than that.

"Yesterday morning, with the thought that at the end of the day I would be free, my step to the office was more springy than usual. Not a business nor social engagement did I have. If anybody had attempted to start anything in either line I would have said, 'Nothing doing. I am going to be busy,' and I would have finished the sentence to myself with 'at home.'

"I felt like a lark all day. 'Nothing to do tonight,' I kept repeating to myself, 'nothing at all; absolute freedom. I will catch up on the magazines that have been accumulating. I will take up the book that I haven't looked into for so long that I have forgotten who the characters are. I will sit in my favorite soft, easy, sunk-down-deep chair under the reading lamp. I will don my dressing gown and slippers. I will luxuriate all evening—a nice, quiet, long evening.'

"I could hardly wait for dinner to be over. When it was, I immediately set about doing all that I had planned. I relaxed, groaning with comfort into my chair. My dog curled up at my feet, something he had not done for a month, too. I went to my reading. I read for an hour. And then, darn it all I got so blamed sleepy that I couldn't hold my eyes open. I just had to go to bed. I hated to do it and I was thoroughly disgusted. But there was no help for it. And there you are; my glorious evening completely ruined because I was too sleepy to enjoy it."—Providence Journal.

WATCH CREATION OF FLORA

Botanists Intensely Interested in Nature's Work on Volcano Island in Bombon Lake, Luzon.

The destruction of vegetation in isolated regions is a matter of great interest to botanists, who are making increasing efforts to observe the creation of the new flora taking the place of the old. Volcano island, in Bombon lake, Luzon, was chiefly covered by grasses and small trees before the eruption of the Taal volcano in 1911, but the eruption destroyed all plant life except some clumps of bamboos and a few bananas in the northern part of the island. In a report on the revegetation W. H. Brown, E. D. Merrill and H. S. Yates note that in six years 29 vascular plants had been recorded, the chief species being a few grasses. Of the total, 54 per cent were probably introduced by birds, about 20 per cent by the wind and about 10 per cent by the water—a different showing from that of the more exposed Island of Krakatoa, in the Strait of Sunda, where the chief work of birds was small. The growth of vegetation on Volcano island is still sparse—a condition attributed to lack of proper soil and the ground's small amount of water and high proportion of sulphates.

Wideawake Mexicans.

A Mexican citizen of Mazatlan recently has been granted a concession of 100 hectares (about 247 acres), and so much more as may be necessary, at the railway station of Oso, state of Sinaloa, for the purpose of establishing an experimental farm to demonstrate the economic value which would result from the proper use of modern American agricultural machinery in the production of crops. It is the intention of the concessionaire to rent portions of the lands at a nominal cost to American manufacturers of agricultural machinery and implements, who may send experts to demonstrate the machinery with the view both to promoting sales of the American goods and to educating the people in the more modern farming methods.

The works of Victor Hugo have been translated into Japanese, to be published in a monthly series of 12 volumes beginning with June. "The translators," says the Herald of Asia, "include literary men of known standing, whose names are a guarantee of conscientious work. Many of the great French author's works have already been translated into Japanese, one of these, "Les Miserables," having been dramatized by the late Genichiro Fukuchi; but this is the first time a translation of Hugo's complete works has been attempted. The appearance of the new publications will confer a great boon upon the public, who evince a strong hunger for inspirations of the sort supplied by the illustrious French author.

No Jazz There.

A dance given at Albert hall recently in London and patronized by all the nobility, including Queen Mary and Queen Alexandra, had upon its program fox-trots and other dances of the kind so popular before the war, but no "jazz." England is said to be dancing mad, but that the dancers do not take kindly to this latest American dance although American dances are as a general thing very popular. The "Peace Valse" is the newest English dance and is said to have been applauded for three minutes when the first notes of the waltz were played.

SAFETY FIRST ON ALL THE RAILROADS

The National Accident Prevention drive which will open on all the railroads of the nation Saturday morning at 12:01 will be participated in by all of the employes of the railroads throughout the country.

In inaugurating the accident prevention drive the United States Railroad Administration wished to prove to the 2,000,000 transportation employes in this country that they could if they so willed, work with absolutely safety; that they could so protect themselves and their fellow employes for 14 days that there would not be even as much as a scratched finger or a bruised toe. Carelessness, the administration holds, is easily eradicated. It causes sorrow in many homes in the course of a year and also means great suffering and loss of man power.

Confederate Memorial Day.

April 26 is celebrated in Alabama, Georgia, Florida and Mississippi as Confederate Memorial day, a day that corresponds to May 30 in the North. The day was established by a woman from Georgia, Mary Ann Williams, who, in a letter printed in the Columbus Times in 1866, called upon her fellow citizens to observe the following April 26 as a day "to wreathe the graves of our martyr-dead with flowers."

Ideal Marrying Age.

Interesting points regarding matrimony are raised by a clause in the will of a London magnate. Much of his property is left in trust for his children, the income from their shares to be paid to their mother until each child attains the age of twenty-seven. The maker of the will expressed an "earnest wish and desire" that no child should marry until that age was reached.

To Restore Tired Eyes.

If the eyes are very tired and one specially wishes them to be as bright as possible, it is quite helpful to lie down for half an hour with the eyes closed, and a folded handkerchief dipped in cold water, in which boracic acid powder is dissolved, laid across the forehead and eyes. This can be reapplied as soon as the cloth is warm.

PREPARING FOR GENERAL ELECTION

The clerks in the county commissioners' office are busy preparing for the general election to be held on Tuesday, November 4. This is a job, as poll books must be made for each of the 154 precincts in the county, in addition to a lot of other suppliess. This must be ready for packing and delivery to the judges of election in each district before election day, which is but a short distance away.

Chief Clerk Campbell is busy designing the ballot for the election. The arrangement of thecounty offices will be the same for each district, but in each borough and town-The arrangement of the county offices to be filled and this will necessitate a different ballot for each of the 154 precincts, as there are also precinct election officersto be elected in each. This work must be completed by the first of next week. The bids for the printing of the ballots will be closed next Monday at noon and opened at one o'clock the same day. The ballots, after award of contract, must be delivered to the commissioners' office in plenty of time to arrange for their distribution to the various precincts in the county. The ballots will probably be delivered on Saturday, November 1, and on Monday, November 3.

LOCALS WILL PLAY WEST NEWTON HIGH

Tomorrow afternoon at 3:00 o'clock the strong West Newton High school football team will clash with the local griddeers at the ball park and a large attendance of football lovers is expected to witness the contest. First hand information says that West Newton is bent on taking the measure of Charleroi High, but an old adage says, "There's many a slip 'twixt cup and lip," and the local team is quite confident of making that "slip" occur. A large number of "rooters" are expected from West Newton and a cheering duel is looked between the contending forces prior to and during the continuation of the game. The High school management hopes for a large attendance and a good game is promised The admission is the usual price of 50 cents.

"Reds" expelled from Weirton, W. Va., were first required to bow and kiss the American flag. A variety of lynching to which only the "Reds" will object.

If you want people to like you, talk to them cheerfully about things in general. Don't inflict upon them your disgruntled complaints or depressing worries for even a tried friend can stand only a limited amount of these.
